# Chill Charger TM

## Water-to-air Intercooler Performance Improver

Chill Charger<sup>TM</sup> is an additive specially formulated to improve the performance of water to air intercoolers in forced induction environments. Used in intercooler reservoir, the product helps to enhance thermal transfer from intake charge air to the water resulting in a colder intake charge. Chill Charger<sup>TM</sup> is safe to store, handle and use. The product is non-toxic, non-corrosive, water soluble and biodegradable. Available in a 16 oz. bottle (#040208).

### **CAPABILITIES**

Cooling Power: Used at a 10% dilution, Chill Charger<sup>TM</sup> can reduce intake charge temps by 20 degrees f.

**Applications:** Chill Charger<sup>TM</sup> is added to intercooler reservoir, for example a 16 quart system would require 10% Chill

Charger<sup>TM</sup> or 85% water to 15% Chill Charger<sup>TM</sup>

**Cleanup:** None needed. Product biodegrades rapidly. Oil molecules do not form a tight

emulsion with the solution.

**Disperant** 

**Capability:** Low. Treated oils are not dispersed in water.

### **CHARACTERISTICS**

**pH:** pH of concentrate is <10.0

**Flash Point:** Negligible **Boiling Point:** 212° F

**Odor:** Mild scent. Does not contain d-limonenes. Clear/purple in color.

Water Solubility: Complete.

**Shelf Life:** Indefinite when stored in closed containers between 32° F and 120° F

**Dilution Strength:** Use at 10% or 15% depending on whether or not anti-freeze is used with water.

**Residue:** Agent layer dissipates rapidly. Product leaves virtually no residue.

## **ENVIRONMENTAL and SAFETY CONSIDERATIONS**

**Biodegradability:** 100% in 21 days under ideal conditions.

Hazardous No components are listed in the NIOSH Recommendations for Occupational Health

**Components:** Standards, 1988, or are defined as hazardous by SARA, CERLA, or RCRA.

No OSHA PEL's are established for other ingredients.

**Handling:** Product is neutral when diluted. It may remove oil from skin and may

irritate eyes if sprayed directly into them.

**Disposal:** Agent may be disposed through municipal systems.

## MATERIAL SAFETY DATA SHEET Chill Charger<sup>TM</sup>

## **SECTION I – IDENTIFICATION**

**Distributor:** Design Engineering, Inc.

**Address:** 604 Moore Rd

**Trade Name:** Radiator Relief<sup>TM</sup> **Product:** Cooling Agent

### SECTION II - INGREDIENTS AND HAZARD CLASSIFICATION

Components are a classified trade secret. No components are believed to be hazardous, or listed in the NIOSH Recommendations for Occupational Safety and Health Standards, 1988, or listed as hazardous by SARA, CERLA, or RCRA. No OSHA PEL's are established for any of the other ingredients.

## **SECTION III – PHYSICAL/CHEMICAL CHARACTERISTICS**

Boiling Point:212° F.Vapor Pressure (mm Hg):Same as waterSolubility in water:100%Specific Gravity:1.02 @ 60° F.

<u>**PH:**</u> <10 <u>**Appearance and odor:**</u> Clear/pink liquid, mild

smell.

## **SECTION IV - FIRE AND EXPLOSION DATA**

Flash Point:Not applicableFlammable Limits:Non-flammableLEL:Not applicableUEL:Not applicable

Extinguishing Media: Not applicable

Special Fire Fighting Procedures: None Unusual Fire and Explosion Hazards: None

## **SECTION V - REACTIVITY DATA**

**Stability:** Stable. **Incompatibility:** None. **Hazardous Decomposition Products:** Carbon monoxide and carbon dioxide.

Hazardous Polymerization: Will not occur.

## **SECTION VI – HEALTH HAZARD DATA**

**Exposure Limits** 

**OSHA PEL:** Not established. **ACGIII TLV:** Not established.

**Routes of Entry** 

**Inhalation:** Yes **Skin:** Yes **Ingestion:** Yes

Signs and Symptoms of Exposure

Skin: Negligible hazard. Not a primary skin irritant. Dermal irritation testing for 72 hours on albino rabbits

showed no erythema and no edema.

**Eyes:** Not considered to be a primary ocular irritant.

**Inhalation:** Negligible

**Ingestion:** Not considered to be orally toxic.

First Aid

**Eyes:** Immediately flush eyes with water. **Skin:** Rinse with water. **Inhalation:** Negligible. Remove to fresh air. **Ingestion:** Drink water.

Carcinogenicity

NTP? No IARC? No OSHA Regulated? No

**MSDS PAGE 1** 

## MATERIAL SAFETY DATA SHEET Chill Charger<sup>TM</sup>

## SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

#### **Spill or Leak Procedures**

Rinse affected area with water

#### **Waste Disposal Method**

Dispose as non-hazardous waste in accordance with local regulations.

#### **Storage and Handling Precautions**

Store in temperatures from 32°F to 120°F in closed containers to prevent evaporation and deterioration. Freezing will not damage material as long as container remains intact.

#### **Other Precautions**

Although components have low hazard levels, the product will remove oils from the skin like common soap. Avoid prolonged skin contact.

## **SECTION VIII - CONTROL MEASURES**

#### **Respiratory Protection**

Not required.

#### Ventilation

Under ordinary conditions of use for its intended purpose, no special ventilation is required.

#### **Protective Gloves**

Wear if there is prolonged skin contact.

#### **Eye Protection**

Wear if needed to prevent reasonable probability of eye contact

#### SECTION IX – HAZARD CLASSIFICATION

**IMO Hazard Class and Number:** Non-hazardous. **UN Number:** Not applicable.

**US DOT Hazard Class:** Not regulated by DOT **US DOT Identification Number:** Not applicable.

## **SECTION X – REGULATORY INFORMATION**

**HMIS Rating:** Health: 0 Flammability: 0 Reactivity:: 0

## **SECTION XI – ENVIRONMENTAL DATA**

**Biodegradability:** Product is 100% biodegradable in an active environment within 21 days.

<u>Toxicity:</u> In accordance with U.S. EPA Office of Pollution Prevention and Toxics criteria for ranking the acute

toxicity of chemicals in the aquatic environment, JG-302CA is considered to be of low concern.

- 96 hour acute toxicity versus freshwater alga (Selenastrum capricornutum) IAW 40 CFR 797.1050 showed JG-302CA was algicidal at concentrations above 750 ppm.
- 96 hour acute toxicity versus juvenile rainbow trout (Oncorhynchus mykiss) IAW 40 CFR 797.1400 showed An LC50 of 105 ppm.

The information presented in this MSDS is believed to be factual. However, nothing contained in this information is to be taken as a warranty of any kind. The user should review any recommendations, in the specific content use, to determine whether they are appropriate.
